WORK EXPERIENCE

React Native Developer | Neo HiveMind Solutions

May 2025 - Present

- Building **two fintech mobile applications** using **bare React Native** with complete ownership of core modules.
- Implementing **architecture, navigation, Redux Toolkit state management, reusable UI systems, and workflow screens**.
- Developing dashboards, charts, authentication (Login + SSO), PDF modules, tables, and dynamic forms.
- Integrating REST APIs using **Axios**, managing offline storage with **AsyncStorage**, and delivering production builds.
- Collaborating with **backend and UI/UX teams** for consistent design and data flow.
- Tech:** React Native (Bare), JavaScript, Redux Toolkit, React Navigation, Axios, SVG, Gifted Charts, AsyncStorage, react-native-pdf

Software Developer | Griffyn Robotech Private Limited

Jan 2022 - Apr 2025

- Developed cross-platform **Android** and **iOS applications** using **React Native**.
- Implemented **Redux Toolkit** for efficient state management and improved overall app performance.
- Ensured accessibility, responsiveness, and seamless usability across multiple devices.
- Enhanced user experience by adding **skeleton loaders** for smoother UI interactions.
- Collaborated with backend teams to integrate **REST APIs** and optimize data handling.
- Strengthened skills in Redux Toolkit, debugging, performance optimization, and problem-solving.
- Tech:** React Native (Bare), JavaScript, Redux Toolkit, React Navigation, Axios, SVG, Gifted Charts, AsyncStorage, react-native-pdf

Software Developer Intern | Roxiler Systems

Sep 2021 - Jan 2022

PROJECTS

Raise Connect — Fintech Mobile App (React Native)

- Tech:** React Native (Bare), Redux Toolkit, React Navigation, Axios, AsyncStorage, react-native-pdf, SVG, JavaScript (ES6+)
- Worked end-to-end from **project setup to deployment**, delivering a stable and scalable mobile app.
 - Implemented **login, SSO authentication**, and **role-based access control** for secure user operations.
 - Added **screenshot/screen-recording prevention** and **snapshot protection** to ensure high security.
 - Developed workflow modules, approval journeys, **dynamic forms**, and **REST API-driven** data screens.
 - Integrated **PDF viewing** & document management using **react-native-pdf**.
 - Built reusable UI components, custom hooks, and implemented clean architectural patterns.
 - Implemented **lazy loading** and **optimized API handling** for large datasets and faster screen rendering.
 - Published on [App store](#) and [Play Store](#)

Raise FAS — Fintech Mobile App (React Native)

- Tech:** React Native (Bare), Redux Toolkit, Gifted Charts, SVG Animations, Axios, AsyncStorage, react-native-pdf
- Built the entire investment & analytics app from **scratch to deployment** using **React Native CLI**.
 - Developed advanced financial dashboards using **Gifted Charts** with **animations, legends, and drill-down** interactions.
 - Created dynamic tables, analytic views, and multi-level navigation structures for complex financial data.
 - Designed reusable components, **custom hooks**, and config-based UI logic for scalable development.
 - Integrated document/PDF workflows and secure data handling via **REST APIs**.
 - Applied **lazy loading** and optimized heavy data screens for smoother performance and faster load times.
 - Published on [App store](#) and [Play Store](#)

BlackBox(AT&T)

- Developed a cross-platform mobile app with React Native
- collaborating with designers & backend developers.
- performance.
- Built reusable UI components, implemented business logic, and optimized the app

TalentOjo(KPIT)

- Built Android/iOS app with React Native, integrated APIs with Axios, and delivered reusable

GymBuddy Complete Guide

- Developed a fitness app in React Native with Figma-designed UI
- Built workout dashboards and integrated exercise videos for guided training
